WEDNESDAY, FEB. 25, 1874.

Ar the election in Frederick, Md. on Monday, the Democrats elected the Mayor by 106 majority, and a majority of Councils. This result restores the city to Democratic control. Three 200 majority.

THE Legislative Re-Union will take place at Harrishurg to-morrow. The oldest Speaker of either branch present is to preside, with the other Speakers as Vice Presidents, and the oldest Clerk to act as Clerk, with the others as assistants. The seniors on the roll sat in 1818, and are Walter Craig, of Washington, aged 95, and Daniel Sturgeon, of Fayette, in his 86th year. In the list we observe the name of Hon. Wm. McSherry, of this county, who had a seat in the House in 1348 and was a very young member.

PHILADELPHIA re-elects Stokley, the Monallen is the heaviest Republican ring and Radical candidate for Mayor,

Wm. B. Hazelton, Esq., the Chatrman of the Citizens' Committee of Investigation, writes a communication to the newspapers of Philadelphia, in which he details some of the numerous instances of great and gross frauds which were perpetrated at the recent election. Repeaters boldly and openly plied their trade in the presence of Stokley's police, absent citizens were personated, bogns tax receipts were freely distributed, election officers were bribed to make false returns, those who held Me-Clure tickets were beaten and driven for the next stop with interest, from the polls, and the will of the peo-ple was defeated by fraud, bribery and oltz, Democrat, Assessor, by a hand-some figure; also David Weikert, Demfrom the polls, and the will of the peo-Col. night week. Loss \$250.

Norms.-Several new forms printed as his office last weak, PATEST.-Among the patents issued last week was one to David Warren, Gettysburg, Car Starter.

An appropriation of \$25,000 is asked from ongress in aid of the Orphans' Homestend at Gettysburg. LAST week the pupils of the East Berlin High School presented their teachur, J. Cur-Hildebrand, with a copy of "Europe

Som: observant people state that the Engish sparrows of late introduced into New York and other cities, eat up the mosquitoes, thus performing a most essential service to eople with sensitive skins.

the coming summer.

On Saturday week, as Mr. Michael Mum-

BORGUGH & TOWNSHIP OFFICERS, Elected in Adams County, Fob. 17th, 1874. GETTYSBURG.

A boy was killed, near Newville, by being thrown from a horse.

— The Perry County Democrat says: The barn of H. H. Wagner, in Liverpool township, with all its contents, was destroyed by fire, on Thursday morning last at about four o'clock. Elias Minium, the townt lost flow.

o'clock. Ellas Miniam, the tenant, lost live horses and five cows, which were in the barn at the time. The barn was insured in the Farmers', of York, for \$300 and \$200 on grain. It was doubtless the work of an incendiary, as tracks could be seen in the snow from the barn to the road.

— Mr. Holmes Crawford, a prominent citizen, died near Fnyotteville, Franklin country, on Saturday week, aged \$1 years.

Rev. I. N. Hays, of Chambersburg, has accepted the call recently given him, and goes to Junation city, Kansas.

Doubler, the Republican candidate for Burgess in Chambersburg, has only 24 ma-

Syshi, will address the mones of Conystourg in the Presbyterian Church, next Friday of bernoon, at 25 o'clock, on Foreign Missions. A collection in aid of the work will be taken, and an active worker will show what workers can do.

The Smalay School District Convention composed of the townships of Straban, Tyrone and Mountpleasant, will meet at St. Paul's church, near Now Chester, on Saturday, March 14th, at 1 o'clock and 7 in the evening. All Sanday School workers are cordially invited to attend.

Sales.—Mr. Lewis Stronse, on Saturday, purchased the property of Sidney O'Brien, doceased, on South Washington street, at \$1.50.

The Trustees of the Methodist Episcopal in the Paul's developed in t

The Trustees of the Methodist Episcopal hold retained her health and for months church (colored) have purchased from Hivan Warren a half lot of ground on West attent where they purpose to errect a church the coming summer.

On Saturday week, as Mr. Michael Mun
Ills devoted wife, who alone of all his house, dark for months for months for months John Weigle, Joseph W. Bream; Assessor, Philip A. Pickes: Supervisors, Bannel Welson, Burnard Greitner; School Bureaton, United Welson, B. Garden, Ell Gotenhour; Anditor, William Sinyers; Treasurer, Henry Menges; the coming summer.

Mr. Spangler and family were invited on to first and west newsy expecting to spend an Judge, David H. Myors: Inspectors, Geo.

## THE FARMER. SOILING CROPS

I give you, as promised, some ac pared, and as convenient to the same as possible. As early in the spring as the senson will allow I put in three acres of cats, sowing four bushels to the

wheat is ready to commonce on, I mix ance, 5. Doeslity and quietness of dishay with the rye at first, to an extent position. These are indicated by large, that will prevent scenting, which the mild and clear eyes, and an air of consudden change from winter to all green tentinent generally. A cow that is feed will produce. As soon as I begin quiet and contented feeds at case, cutting the wheat, the rye that is left is chews her cut with entire satisfaction, made into hay, and the ground pre- and will secrete and yield more milk, pared and sowed to corn, two and a than any restless and turbulent animal half to three bushels to the acre, broadcast. I am not satisfied, however, having tested it last year, that better results are obtained by sowing the corn in drills, two and a-half or three feet apart, cultivating first with the Thorr cultivator.

fed until the corn on the rye ground was ready for feeding. I have somebetween oats and the first corn, but us

enough to last until after the holidays. Sowed corn, Hungarian grass, sugar fedder from planted corn I cut with Wagoner & Matthews' fodder outler, to three inches, passes them between masticators, putting it in better condition for feeding than any machine ! have seen. There is then no danger of sore-mouthed cattle from hard or sharp edges of cut corn-stalks, but the whole is made soft, and cattle and sheep cut it

amount of manure to use so liberally; having only the one lot, with shade and not restless as when pastured, looking for changes, and produce more milk and butter by being kept quiet. The particular crop of fodder-coin mentioned to you, and concerning

which you now inquire, was one and even at this cost I believe it was the cheapest food I bought that sum-My experience with Hungarian gras

last season was very satisfactory; I sowed one bushel to the acre about the middle of June, it grew off finely and yielded me fully three tons to the acre, as I believe; it makes most excellent on upland hay. Yours truly, Lewis II, Cold.

Cherry Hill, Carroll co., Md., Jun. 13, '71.

CORN AND WHEAT YIELD OF 1873. Corn.-There is no State in which corn is a crop of any general impor-tance which reports the yield of 1872, Only Massachusetts, Florida, West Virginia, Oregon, and California main-The decline is considerable in all sec-Arkansas and Tennessee, which ordiof the other Southern States, are, respectively, 23.5 and 22.5. The rates in the following States bear an increasing ratio from east to west: South Care ratio from east to west : South Carolina, 9.5; Georgia, 12.3; Alabama, 14,-States have undoubtedly some of the richest soil in the country, yet the product is small in comparison with the yield of the Miami and Sciota bottoms and the prairies of Illinois; many have thought that thin planting-a single stalk in a bill-has some influence upon this result. In the Middle States the ting that certain things and apartments reported yield is less by one-eighth than 1872. In New York from 37.5 to 31 bushels; in Pennsylvania, 30 to 35.1; chairs and sofus are covered, and covered, and and in New Jersey, from 59.5 to 36. The highest estimate average this year is 41 bushels in California; the lowest, 9.2 in South Carolina. The estimated

Southern States and in West Virginia, and north Ohio and west of the Missis- is experienced by the most insensible. sippi the average yield is larger, the main improvement being in Illinois, visited houses where they have been in-Missouri, Kansas, and Nebraska. The troduced to what is known as the com-Missouri, Kansas, and Nebraska. The rate of production in California is less. The yields of the wheat-growing States are as follows: Ohio, 12 bushels; Michigan, 12.2 Indiana, 12.3 Illinois, 12.5; Wisconsin, 16.5; Minnesota, 8; Iowa, 12.4 Missouri, 12.8; Kansas, 15.5; Va. were not themselves at ease. The chill Wisconsin, 16.5; Altimesora, 8; Iowa, 13; Missouri, 12.5; Kansas, 15.5; New York not themselves at ease. The children were mot themselves at ease. The children were watched with lynx eyes, lest South the range is from 5.6 in South they should displace or soil something; Carolina to 17 bushels in Texas. The so that the entertainment of friends behighest yields are 10 bushels in Oragon came very much like a social decipline, and Massachusetts, (in the latter State They must recall, too, how sweet the the who'e area is scarcely equal to one fresh air seemed out-of-thors, and how of the larger class of western farms,) they hawardly vowed, on loaving that and the smallest in South Carolina. something more than politoness would GOOD POINTS OF A COW. be required to Incite them to return, Home is not a name, nor a form, nor

The characteristics of a good milker, are: 1. Youth. A cow is in her prime a routine. It is a spirit, a presence, from four to six years, and the best a principle. Material and method will from four to six years, and the best paying time to buy is just after the birth of her second or third calf. 2. Prominence and follness of milk veins, and velvety softness of skin. The milk from the sympathetic natures which, and velvety softness of skin. The milk from the sympathetic natures which, veins run down on either side of the in their exercise of sympathy, can lay animal towards the adder, and are easily perceptible to the eye, or can be the awful duty of endless scrubbing.—

If G. WOLF will attend to the Wingram Dec. 18, 1868. It is awful duty of endless scrubbing.—

if the animal is not over fat. The skin should be soft and mellow, not hard, rough and "staring," 3, Symmetry, fullness, and softness of the udder. It should be broad, well spread out, projecting behind the logs, and also reaching forward under the belly. There should be a softness and thinness to the teuch, and absence of fleshiness and thickness. 4. Perfect number and condition of teats. If one teat is wanting, t give you, as promised, some and memor of teats, it one teat is wanting, count of my management of soiling about a fourth less milk will be the recrops. My hord numbers about thirty suit. A cow's udder is not, as some hist of September I broadcast two vided into different compartments, suppose, a barrel with taps, but is dibushels of rye on one acre of ground, called "milk glands," each of which and five bushels of wheat on two acres, has its own tap or leat. It is not only -the land being rich and well pre-important that the full number of tons pared, and as convenient to the stable be present and in working order, but it By the time half the rye is fed the ward; equal in size and even in appear-

MANURING FOR VEGITABLES. J. B. Root, a snecessful market gardener of Rockford, DL, states in the as barrow and then twice working with Fruit Recorder that he applies to his ground heavily in Winter, broadeast, The wheat I cut I wice, and have cut at the rate of forty loads per acre, well three times. The wheat left is made rotted manure, so that the soluble food into hay, and the wheat ground put in is leached out and is at hand in the to sowed corn. The oats were then soil for the young vegetables in Spring. In no other way can be make the same amount of manure tell so well, and he times had to feed a few days on clover is never delayed a day in getting his manure out in Spring before planting, manure out in Spring before planting, into have becoming more and more appreciated, From six acres, as above, besides and possesses many advantages; and that fed to thirty mileh cows, I feed although especially useful when applied six horses to some extent, and I have of to grass for involting as sod in Spring, rye, wheat, outs and cured corn-fodder we have long since found it efficacious when used on mellow or worked soll. Fresh manure may be used in this way beets-plants grown to set out at this to better advantage than in the comime-I put in outs ground. My prac- mon mode of application, imamuch as tice is to cut all my green feed with all the soluble parts are carried down straw cutter and mix with wheat brun, and more finely diffused among the parcorn chop, &c. Cured cornfedder and ticles of the soil than can be done mechanically with the finest compost; while the course litter which remains, which, after cutting it in length of two may be eather left as mulch, speded in, or raked off, as may be most advisable, Swame may be rectalmed and made

often the best of land. It already, in the main, has the fertility. Drainage and culture will develop this, and for years profitable crops may be grown without manure. Always plow such I stall-feed altogether, and am care- land in the Fail, as the clay, which ful to have my land well manured and loads it a swamp, needs this as well as put into such condition that it will insure good soiling crops. I think by crude by the water. Yet manure will this system only can we make the aid in the start. Particularly is this the case with horse manner applied and besides, I find a great advantage in fresh from the stables on the plowed land and spread finely and evenly. Afwater, for cattle to run in. They are ter the first year, or even sometimes the ärst season, com will grow well. But any erop almost will succeed. In general, clover and the grasses will do hest.

Chacking and overteaching can I ented by making the shors of the forebought when carrying on a milk farm feet heavy, and the hind shores light, near Baltimore. For one aere of corn I The heft of the shoe, when the fout is paid \$150, and cut and hauled it a mile, thrown forward, carries the forefoot out of reach of the hind foot, and most cases provents the feet coming is

HOUSEKEEPER.

HOMEKEEPING VS. HOUSEKCEPING. The truest homes are often in houses ot especially well kept, where the comfeed both for horses and cows. Both fort and happiness of the humates, ratheat it with a relish, the former fatten- et than the preservation of the furniing on it, and the latter, incredible as ture, is first consulted. The object of it may appear, increasing their yield of butter above what they gave when fed on upland hay. Yours truly,

home is to be the centre, the point of tenderest interest, the pivot on which family his turns. The first requisite is to make it attractive, so attractive that none of its inmates shall care to linger long outside of its limits. All legitimate means should be employed to this end, and no effort spared that can contribute to the purpose. Many houses called homes, kept with wavy neatness by painstaking, auxious women, are so tain their previous rate of production, all home-feeling from their spottess prooppressive in their nicoty as to exclude cincis. The very name of be tions of the country, but is greatest in the heart of the corregrowing region. The lowest rate in the Westorn States is 21 bushels in Illinois. The estimated average in Kansas is 22.5; Missouri, 5.7; Lowa, 25; Indiana, 20.6; Wiscouri, 5.7; Lowa, per depends upon their maintenance of perfect purity and order. If there be they fall into apathotic despute, and can 5: Mississippi, 15.5; Louisiana, 16.5; that observations is more needful to Texas, 19. The corn-fields of these home than all the spottessnoss that over shone. Their disposition to wage war upon magniateness of any sort increases until they become slaves of the

broom and dust pan. Neatness is one thing, and a state of perpetual houscleaning quite another. tality. Nothing should be bought quantity of the crop of 1872 was 1,092. tallty. Nothing should be bought 719,000 bushels; its area 35,526,836 which is considered too flue for the full-719,000 bushels; its area 35,526,836 water is considered too into tor one caracres; average yield, 39,7 bushels. The average yield in 1873 is 28,3 bushels per users. Water is considered too into the better is the plainest furniture, on which the children can climb, than satin and Wheat.—The yield of wheat in New England is a little less than in 1872; is materially larger in the Middle States and in Marviand, smaller in all the

round, and the repulsion of strangeness There are few persons who have not temple of form and fldgetness, that
